

Participants/teams will continue to acquire Manitoba Stick Curling Tour (MSCT) points for registering and all recorded wins in each MSCT event entered. Each individual's best five events will be used to calculate Team standings. Championships in the Western and Central Regions will be awarded in the Mens, Mixed and Womens divisions.

Participants/Teams may participate in any division they are eligible for, but may only win one Tour Championship (Central-Mens, Central-Mixed, Central-Womens, Western-Mens, Western-Mixed and Western-Womens). Individuals must declare their home club and this will be used to determine which Region the individual/team will compete in. In the case where a team has a member from each division the team will be asked to declare which division they chose to compete in at their first MSCT event.

In the case where an individual wins two MSCT division championships, they will be asked to declare which Championship division they will compete in at the MSCA Championships, with the non-competing event being offered to the next complete team (not the remaining team member).

All MSCT Champions are required to declare a home curling club affiliated with Curl Manitoba to comply with the MSCA Provincial entry requirement.

Individuals/teams will acquire MSCT points for any MSCT event they participate in. Individuals/teams will compete in the Division that their declared curling club is affiliated with (e.g., East St. Paul participants/teams will compete in the Central Division, Eriksdale participants/teams will compete in the Western Division). Please note that in order to participate in the Manitoba Stick Curling Association Provincial Championships all participants must be associated with a Curl Manitoba affiliated club.
